Re: Timothy Miller ACFAS Southeast Region Secretary/Treasurer Statement of Interest

Dear Members of the ACFAS Southeast Region

I hope this finds you well. My name is Tim Miller. I am a private practice podiatrist in Orlando, Florida. I am a proud co-founder of Sunshine Ankle and Foot Experts, a practice that serves the greater Orlando area. I want to thank you for taking the time to read this and I am hopeful that you will consider me for the next Secretary/Treasurer of the ACFAS Southeast Region. I have always seen myself as a person who is constantly trying to advance our profession and the quality of the care that we provide.

After becoming more involved in the the American College of Foot and Ankle Surgeons and seeing first hand how the college positively impacts the profession on the state and national levels, I feel that ACFAS is the strongest coalition we have to aide in the support of our profession. You will be excited and surprised if you elect me to this position, for you will not find a person with more passion to help ACFAS continue to provide excellent support and educational opportunities to our profession.

I had the honor of being one of the inaugural members of the Chris Mahaffey Leadership Development Program. Going through this program allowed me first hand experiences with proven leaders in our field and allowed me to work on my leadership skills. This helped me not only to become more involved in ACFAS, but become a catalyst for continued progress within ACFAS. This program was fantastic, and has made a profound impact on my life. I am hopeful to bring these leadership skills to the Southeast Region.

I currently serve on the Membership committee for ACFAS. I am helping with future podcasts and webinars relating to the ACFAS website navigation and how to supplement income as a physician. My goal with this committee is to continue to aid my fellow members and to help the college continue the long standing tradition of providing educational excellence. I am excited for the upcoming educational series that the Membership committee is preparing, as I know it will help our members excel and succeed within the profession.

ACFAS prides itself on cutting edge research and the most up to date statistics to allow our profession to continue to advance in unprecedented ways. I have this passion, which is why I am a peer review for FASTER and a Scientific Literature Review Editor. Research is the reason medicine progresses, and helping ACFAS with this is has been an incredible experience that I hope to continue.

I believe that our certification pathway to become fellows of ACFAS is one of the most important processes in our profession. It is important to make sure that this process is held to the highest standards. This is why I am a residency evaluator representing ABFAS. I am helping to ensure that residencies are following the correct protocol for proper training of the future of the profession. It is also my pleasure to be on the case review examination committee for ABFAS, making sure that applicants meet the certifying standards to become fellows of the college. I am also on the exam preparation task force for ABFAS, helping to ensure proper examination preparation techniques and guidelines so that candidates are well informed and prepared for the vigorous process.

I want to make a focus on building relationships to help foster and strengthen ACFAS. I believe that there are plenty of young physicians that do not know the true impact that ACFAS has on their careers. I could be a liaison that connects ACFAS with their young members. Being a part owner of a private practice allows for more unique opportunities where I can offer my time to

physicians looking to start their own practice or give advice to ones who are trying to grow what they have started. As a young physician myself, I can help ACFAS reach out to other young physicians in order to offer services to help establish themselves while positively impacting the community around them. Becoming a leader of the Southeast Region for ACFAS will allow me to broaden my base of connections and reach more students and physicians. I would like to make education a priority and assist ACFAS in efforts to continue to expand the role of educating our members and students.

I am applying because I am excited about this position and the impact that I can have on our profession. I hope this letter conveys the sincerity of my intentions in trying to advance the field of podiatry and assist ACFAS. I hope that you believe that I have the skills to excel in this position. I believe that the position of Secretary/Treasurer of the Southeast Region is a great opportunity to allow me to continue to positively impact this amazing profession. I hope you look upon my application fondly. Please do not hesitate to contact me with any questions or concerns. Thank you for your time and consideration.

Sincerely,

Dr. Timothy J. Miller, FACFAS, D.ABFAS
Board Certified, Fellowship Trained Podiatric Surgeon

TIMOTHY J. MILLER, DPM, FACFAS

Orlando, Florida 32828
